EDUCATION AND TRAINING

PhD in Automotive Engineering (2013–2017)

University of Pitești. Thesis: Studies and research on reducing noise pollution from motor vehicles through road traffic organisation.

MSc in Transport Logistics (2011–2013)

POLITEHNICA University of Bucharest, Faculty of Transport.

BEng in Transport and Traffic Engineering (2007–2011)

University of Pitești; one-semester mobility at ISAT Nevers, France (2009).

Postgraduate training in entrepreneurial skills (2021)

University of Pitești.

PROFESSIONAL EXPERIENCE

Vice Dean | Faculty of Mechanics and Technology (June 2024–present)

Academic management at POLITEHNICA Bucharest, Pitești University Centre.

Associate Professor (February 2023–present); Lecturer (October 2018–February 2023)

Teaches road traffic, road safety, intelligent transport systems, transport management and road infrastructure at undergraduate and master's levels. Research in transport modelling, public transport and infrastructure.

Time Standards Engineer | Lear Corporation Romania, Pitești (March 2017–September 2018)

Developed time standards for technological flows in automotive electrical wiring production.

R&D Engineer | Leoni Wiring Systems, Pitești (February 2014–February 2017)

Designed automotive electrical wiring systems.

RESEARCH INTERESTS

Road traffic and safety; urban mobility; public transport; transport modelling; road infrastructure and sustainable transport.
