

ADRIAN PREDA

Specialist Engineer | Doctoral Researcher in Industrial Engineering

Faculty of Mechanics and Technology, National University of Science and Technology POLITEHNICA Bucharest – Pitești University Centre

EDUCATION AND TRAINING

Doctoral studies in Industrial Engineering (ongoing)

National University of Science and Technology POLITEHNICA Bucharest, Pitești University Centre. Doctoral research topic: Integration of Additive Manufacturing into the Automotive Prototype Development Cycle: A Multidisciplinary Approach.

Engineering degree in Automotive Engineering (1992–1998)

Faculty of Mechanics and Technology, University of Pitești.

CNC machine operator training (2022)

KNUTH–ALLMETECH, Iași.

Authorised person responsible for the supervision and technical inspection of installations (RSVTI, 2010)

Training in ISCIR regulations, ARTROPROD, Râmnicu Vâlcea.

Human Resources Inspector (2009)

Asociația de Sprijin a Șomerilor Dâmbovița.

Public Services Management (2006)

National Institute of Administration, Regional Training Centre, Bucharest.

PROFESSIONAL EXPERIENCE

Specialist Engineer | Faculty of Mechanics and Technology, Pitești University Centre (August 2018–present)

Technical support for education, vocational training and research activities in the Department of Manufacturing and Industrial Management.

Assistant Project Manager | ROSE educational projects (2019–2024)

Supported projects AG179/SGU/NC/II (2019–2021), AG353/SGU/SS/III (2020–2022) and AG399/SGU/SS/III (2023–2024), focused on access to engineering education and student support.

Mechanical Engineer and Workshop Manager | Roloplast Tehnoconstruct, Bradu (2009–2018)

Managed the mechanical and hardware workshop; held responsibilities for quality assurance and technical supervision of installations (RSVTI).

Engineer and Area Coordinator | Termoficare 2000, Pitești (2000–2007)

Coordinated metrology, maintenance and repair activities and an operational area; held ISCIR authorisation.

RESEARCH INTERESTS

Additive manufacturing; dimensional accuracy of FDM parts; industrial engineering; mechanical systems; ergonomics and production processes.

PUBLICATIONS

2025 Preda, A.; Bănică, C.-F.; Anghel, D.-C.

Integrated ANN–GA Approach for Dimensional Accuracy Optimization in FDM Additive Manufacturing. Scientific Bulletin – Automotive Series, vol. 35. <https://doi.org/10.26825/bup.ar.2025.007>

CONFERENCE CONTRIBUTIONS

Scheduled for CAR 2026: Ciocîrlan, N.-L.; Preda, A.; Anghel, D.-C. Ergonomic Design Approaches for Industrial Exoskeletons Manufactured Using FDM Technologies: A Review Article.

PROJECT EXPERIENCE

Assistant project manager in three ROSE projects supporting students in engineering education (2019–2024).

TECHNICAL AND ORGANISATIONAL SKILLS

Mechanical workshop management; quality assurance; technical supervision (RSVTI); Microsoft Office; AutoCAD; CATIA; project administration and coordination.
