Association in Modern
Manufacturing Technologies

DRIVING LICENCE

Category B

PROFESSIONAL PROFILE

University lecturer and specialist in industrial engineering, logistics, and production management, with experience in research, technology transfer, and university–industry collaboration. Coordinates teaching activities and laboratories in simulated enterprise, logistics, and production systems modelling.

CURRENT POSITION

Associate Professor at POLITEHNICA Bucharest, Pitești University Centre; Programme Director for the Master's degree in Logistics Management and coordinator of the Modelling and Simulation Laboratory.

PROFESSIONAL EXPERIENCE

2021–present | Associate Professor

POLITEHNICA Bucharest, Pitești University Centre, Faculty of Mechanics and Technology, Manufacturing and Industrial Management Department

- Teaches Logistics Management I and II, Supply Chain Management, and Modelling and Simulation; delivers training in the use of ABAS and MFG ERP systems.
- Programme Director for the Master's degree in Logistics Management and head of the Industrial Management subject group.
- Coordinates the Modelling and Simulation Laboratory, equipped with ABAS, MFG, ARENA, and Plant Simulation; supervises bachelor's projects and master's dissertations.

2012–2021 | Lecturer

University of Pitești, Faculty of Mechanics and Technology, Manufacturing and Industrial Management Department

- Teaching and laboratory work in logistics, supply chain management, simulated enterprise, integrated production management, production engineering and management, and modelling and simulation.
- Responsible for the Master's programme in Logistics Management and the laboratory; supervised bachelor's projects and master's dissertations.

2004–2012 | Assistant Lecturer

University of Pitești, Faculty of Mechanics and Technology

Laboratory teaching in Computer-Aided Production Management, Operations Research, Computer-Aided Manufacturing, Industrial Logistics, and Production Engineering and Management I; supervised bachelor's projects in Product Manufacturing Technology.

2006–2007 | Logistics Coordinator

Johnson Controls, Pitești

Procurement, production organisation, and distribution in the automotive components sector.

2020–2024 | Director, Research, Development, Innovation and Technology Transfer Centre

University of Pitești

Planned and monitored research, development, and innovation activities and technology transfer; coordinated the collection and reporting of research results; developed interdisciplinary collaboration with industry; aligned research with societal needs; and facilitated companies' access to university services, infrastructure, and training courses.

2018–2020 | Director, Technology Transfer Centre

University of Pitești

Developed university–industry collaboration, increased research visibility, facilitated companies' access to technological infrastructure, and promoted technology transfer and training services.

EDUCATION AND TRAINING

2004–2011 | PhD in Industrial Engineering

University of Pitești, Romania

Thesis: "Research on the influence of pull-flow production management methods on the performance indicators of a production line."

1998–2004 | Engineering degree in Industrial Economic Engineering

University of Pitești, Faculty of Mechanics and Technology

1994–1998 | Analyst Programmer

Dinicu Golescu High School, Câmpulung Muscel, Computer Science track

2000–2004 | Teacher Training Module

Department for Teacher Training, University of Pitești

Feb–Mar 2007 | MFG ERP training, Crescendo Romania

Mar–Apr 2011; Jun–Jul 2012 | Modelling and Simulation of Production Systems

University of Metz, Laboratory of Industrial and Production Engineering, France

Jun 2012 | ABAS ERP training

Sistec Romania

RESEARCH AREAS AND SKILLS

Research areas: Industrial logistics, production management, continuous production improvement, supply chain management, lean manufacturing, and industrial systems modelling and simulation.

Skills: Coordination and leadership; organisation and written and oral communication; analysis and synthesis; decision-making under pressure; teamwork; analysis, evaluation, and improvement; rapid learning.

Software: MFG, ABAS, ARENA, Plant Simulation, ProModel, MATLAB, CorelDRAW, Prezi, Doodly, MS Office, Adobe, AutoCAD, EMCO WinNC 840D Turning, C++, and Turbo Pascal.

Personal qualities: Ambition, flexibility, initiative, punctuality, and attention to detail.

RESEARCH AND PROJECTS

Research output: 56 reported papers, including 6 ISI Q2 articles, 25 ISI Proceedings papers, 44 papers indexed in international databases, 1 article in a Romanian journal, and 6 papers in national and international conference proceedings.

2018–2021 | UPIT Partner Lead

“Smart Manufacturing Technologies for the Advanced Production of Components for the Automotive and Aeronautical Industries”, PN-III-P1-1.2-PCCDI-2017-0446

Reported outputs: 1 ISI Q2 article, 9 ISI Proceedings papers, and 3 papers indexed in international databases; UPIT contribution: RON 1,057,500.

2019 | Project Director

Goldplast Production – “Improving the Production Flow in the Injection Moulding Department through a Kaizen Workshop and Lean Manufacturing”

Contract 3416/13.03.2019; amount received by UPIT: RON 31,416.

2020 | Project Director

Goldplast Production – “Study on Improving the Production Flow in the Pad Printing Area through Lean Manufacturing”

Contract 6615/16.07.2020; amount received by UPIT: RON 31,416.

2019–2021 | Project Lead

“Intelligent Management of Manufacturing and Inspection Processes for Automotive and Aeronautical Components”, PN-III-P1-1.2-PCCDI-2017-0446

UPIT contribution: RON 17,000.

2018–2021 | Project Team Member

“Incremental Forming of Automotive Components”, PN-III-P1-1.2-PCCDI-2017-0446

UPIT contribution: RON 17,000.

BOOKS AND TEACHING MATERIALS

- **Books (3):** Cornelia-Ana Gavriluță, Managementul Logisticii I [Logistics Management I], Pitești University Press, 2021, e-ISBN 978-606-560-714-9; Eduard Nițu (ed.), Cornelia-Ana Gavriluță et al., Îmbunătățirea fluxurilor de producție: metodologie de aplicare pentru liniile de asamblare [Improving Production Flows: An Application Methodology for Assembly Lines], 2021, ISBN 978-606-560-700-2; D. Iacomi, E. Nițu, A. Gavriluță, Tehnologia fabricării produselor – Ghid de proiectare a tehnologiilor de prelucrare prin așchiere [Product Manufacturing Technology: A Design Guide to Machining Processes], 2016, e-ISBN 978-606-560-500-8.
- **Course materials (3):** Logistică Industrială [Industrial Logistics] (2015, 70 pp.); Întreprindere simulată [Simulated Enterprise] (2020, 80 pp.); Modelarea și simularea sistemelor de producție [Modelling and Simulation of Production Systems] (2020, 57 pp.).
- **Laboratory manuals (8):** Eduard Nițu, Nadia Belu, and Ana Rotaru, Ingineria sistemelor de producție 1,2 [Production Systems Engineering 1 and 2] (2006, ISBN 973-690-532-2); Eduard Nițu, Ana Rotaru, and Nadia Belu, Ingineria și managementul producției 2 [Production Engineering and Management 2] (2012); Eduard Nițu, Nadia Belu, and Ana Rotaru, Ingineria și managementul producției 1 [Production Engineering and Management 1] (2012); Cornelia-Ana Gavriluță, Gestiunea integrată a producției [Integrated Production Management] (2018), Întreprindere simulată [Simulated Enterprise] (2019), Managementul logisticii I [Logistics Management I] (2019), Managementul logisticii II [Logistics Management II] (2020), and Modelarea și simularea sistemelor de producție [Modelling and Simulation of Production Systems] (2020). The 2012–2020 manuals were published by Pitești University Press.
