

Nicolae-Liviu CIOCÎRLAN

I have experience in the areas of manufacturing process development, industrialization, and improvement, and management of maintenance team. I am passionate about technology and understanding how things function around us. I am always eager to learn new things.

EDUCATION

PhD in Industrial Engineering, 2025 - Present

National University of Science and Technology: POLITEHNICA BUCHAREST, Pitești University Center

Thesis: *"Proiectare centrată pe utilizator a sistemelor inteligente pentru personalizarea și optimizarea ergonomic-funcțională a exoscheletelor și protezelor mecanice în mediul industrial."*

MSc in Engineering, 2022

University of Pitești, Faculty of Mechanics and Technology

Major: Industrial Engineering

Program: Product Manufacturing Engineering and Management

Diploma No. 798/07.11.2022, issued by the University of Pitești

BSc in Engineering, 2020

University of Pitești, Faculty of Mechanics and Technology

Major: Industrial Engineering

Program: Mechanical Engineering Technology

Diploma No. 11/22.07.2020, issued by the University of Pitești

PROFESSIONAL EXPERIENCE

Technical & Maintenance Manager (2025–2026)

TREVES GIC

I coordinate the activity of 2 departments, Implement group standards at the factory level. The primary responsibility was the monitoring of production KPIs and the development of action plans to achieve established objectives.

Mechanical Engineer in R&D Team (2024–2025)

ALTEN TECHNOLOGY

Boom management. Performing cost analysis for machine improvement initiatives. Performing feasibility analysis of improvement initiatives

Manufacturing Engineering Leader (2021–2024)

NOVARES AUTOMOTIVE ROMANIA

In my day-to-day responsibilities, I had to make sure that my processes are working in the right condition, keep the work documentation up to date and always analyses the processes for improvements.

ERASMUS+ Traineeship mobility (2020–2021)

UNIVERSITY OF APPLIED - SCIENCES ANSBACH

The main activities involved experimenting with the 3 types of additive manufacturing technologies available in the laboratory (FDM, SLS, SLA); 3D modelling of parts to be manufactured using SOLIDWORKS software; testing different materials used with FDM technology (PLA, ABS, PA, etc.); performing dimensional analysis of parts manufactured using 3D scanning technology; organizing and analyzing experimental data using MINITAB software.

Industrialization Engineer (2019–2020)

NOVARES AUTOMOTIVE ROMANIA

RESEARCH INTERESTS

Exoskeletons
Additive Manufacturing
Product Design
Robotics
Industrial Management

SELECTED RESEARCH PROJECTS

SCIENTIFIC OUTPUT

AWARDS AND DISTINCTIONS

2nd PLACE– Students International Conference “SECOSAFT 2019” (2019)

INTERNATIONAL COLLABORATIONS & MOBILITY

Erasmus+ traineeship mobility at Hochschule Ansbach, Germany. (6 months)

TECHNICAL SKILLS

Software: SolidWorks, Draft Sights, AutoCAD, Solid Edge, CATIA V5, ABB Robotstudio, MATLAB, Microsoft Office, Google workspace, Arduino.
Tools: PFMEA, R-PFMEA, VSM, 8D, QRQC, SMED, Ishikawa, LOTO management, Lean Management,

LANGUAGES

English: B2 (Reading, Writing, Speaking)

PERSONAL COMPETENCIES

Ambitious, flexible, detail oriented.
Strong communication and teamwork skills

DATE: 2026
